

FINHA connectors for assembling frames for houses, garages, sheds, saunas, carports and outbuildings

Everyone can do it

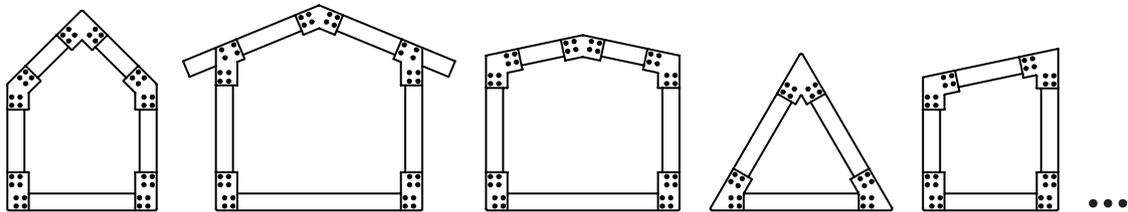

1 Choose the thickness of the walls - the board for the frame beams

Free projects
Visit finha.net

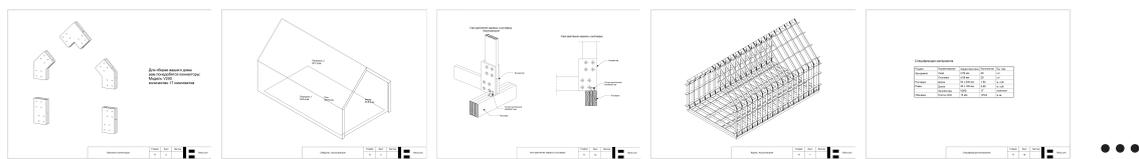

2 Choose a shape:

3 We'll create an assembly project according to your dimensions in a day for free.

4 You receive a brochure. It includes a foundation drawing, material quantities, assembly instructions, components and wall insulation.

5 Buy FINHA connectors, boards, bolts, and construction screws.

6 You assemble the frame in a couple of days.
